1 Identification of the substance/preparation and of the company/undertaking

Product details
- Product category: FAÇADE
- Trade name: EL REY DPR FINISHES
- Application/preparation of the substance: Cement Coating
- Manufacturer/Supplier: PAREXUSA, Inc.
  4125 E. LA PALMA AVE
  SUITE 250
  ANAHEIM, CA 92807
- Further information obtainable from: pedro.paredes@parexusa.com
- Contact phone number: 800-226-2424
- In case of emergency, contact CHEMTREC: 800-424-9300

2 Hazards identification

Hazard pictograms (GHS-US): Irritant

Hazard pictograms (GHS-US): Health Hazards

Signal word (GHS-US): Warning

Hazard statement (GHS-US):
- H303 Can be harmful if swallowed
- H320 Causes eye irritation
- H335 May cause respiratory irritation
- H313 May be harmful in contact with skin

Precautionary statements (GHS-US):
- P402 Store in a dry place.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P302+P352 IF ON SKIN: Wash with plenty of soap and water
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P304+P341 IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing
- P301+P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician

HMIS codes:
- Health: 1
- Flammability: 0
- Reactivity: 0
- Protective equipment: B

Information concerning particular hazards for human and environment:
- Not known to cause reproductive harm or birth defects.
- Keep out of reach of children.

3 Composition/information on ingredients

Chemical characterization

Additional information: n/a
4 First aid measures
General information: n/a
After inhalation: Remove to fresh air. If not breathing, give artificial respiration. If having difficulty breathing, give oxygen. Get immediate medical attention.
After skin contact: Wash affected area thoroughly with soap and water. Remove contaminated clothes and launder before re-use.
After eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.
After swallowing: Do not induce vomiting. Get medical attention immediately.

5 Fire-fighting measures
General information: Water based product
Flash point: n/a
Suitable extinguishing agents: For the dried product, use carbon dioxide, dry chemical, or alcohol foam.
Hazardous combustion products: Incomplete combustion of dried product can yield low molecular weight hydrocarbons, carbon monoxide, and carbon dioxide.
Protective equipment: Respiratory equipment should be worn to avoid inhalation of combustion products.
Firefighting instructions: Water should not be used except as fog to keep nearby containers cool. Water may be used to cool closed containers to prevent pressure build-up and explosion when exposed to extreme heat.

6 Accidental release measures
Measures for environmental protection: Keep spilled products out of sewers, streams, and water systems.
Measures for cleaning/collecting: For dry material, collect by sweeping and scooping. Transfer collected material to a container, being careful to minimize creation of dust. For wet material, scoop material up and transfer to an open container. Allow material to dry before disposal.
Additional information: See section 13 and section 15 for specific regulatory information concerning this product.

7 Handling and storage
Handling: Wear appropriate protective equipment when working with this product. Promptly remove dusty clothing, or clothing wet with product mix, and launder before re-using. Wash thoroughly after exposure to product mixtures. Keep out of reach of children.
Storage: Store in a dry location. Atmospheric temperatures and pressures do not affect the shelf life of this product.

8 Exposure controls/personal protection
Additional information about design of technical facilities: N/A

Personal protective equipment:

ventilation
Use local exhaust. General exhaust acceptable if the exposure to materials above is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, and 1910.108.

respiratory protection
If personal exposure cannot or may not be controlled below applicable limits by ventilation, wear properly fitted respirator approved by NIOSH/MSHA for protection against materials described above.

eye protection
Wear safety glasses to reduce the potential for eye contact.

skin protection
Prevent prolonged or repeated contact by using rubber gloves and appropriate protective clothing.

10 Stability and reactivity

| Conditions to be avoided: | None known |
| Chemical stability:       | Stable     |
| Materials to be avoided:  | None known |
| Hazardous polymerization: | Will not occur |
| Dangerous decomposition products: | By fire: low molecular weight hydrocarbons, carbon dioxide and monoxide. |

11 Toxicological information

Acute toxicity:

crystalline silica (quartz, cristobalite)
Considered a known human carcinogen by Federal (OSHA) and advising health agencies (IARC, NIOSH, and NTP). Additionally, crystalline silica can cause a lung condition known as silicosis after long term exposure to dusts containing crystalline silica. Exposure of workers to crystalline silica containing dusts is specifically regulated by OSHA. The use of a correctly fitted, NIOSH approved respirator suitable for use against crystalline silica inhalation is essential for minimizing exposure to this danger.

mineral dusts
Some items mentioned in Section 8 are considered mineral dusts by OSHA and a correctly fitted, NIOSH approved respirator is required when working with this product.

titanium dioxide
is considered a suspected carcinogen by advising health agencies. There is one animal study where titanium is considered a suspected carcinogen by advising health agencies. There is one animal study where titanium

Primary irritant effect:
on the skin
Exposure of skin to the product may cause chemical burns. Symptoms of exposure may take several hours to manifest.
on the eye
Exposure of eyes to the product may cause chemical burns and blindness. Exposure to airborne dust can cause immediate or delayed irritation or inflammation.
through ingestion
May be harmful if ingested.
through inhalation
Dust or mist generated during handling this product may cause irritation to the respiratory tract.

Additional toxicological information: n/a
12 Ecological information
Elimination (persistence and degradability): n/a
Behavior in environmental systems: n/a
Mobility and bioaccumulation potential: n/a
General notes: n/a

13 Disposal considerations
Product recommendation: This product must be disposed of in accordance with applicable local, state and federal regulations. Where possible, it is best to use up any excess material.
Uncleaned packaging recommendation: Disposal must be made according to official regulations.

14 Transport information
Land transport USDOT Not classified as a dangerous good under transport regulations
Sea transport IMDG Not classified as a dangerous good under transport regulations
Air transport IATA/ICAO Not classified as a dangerous good under transport regulations

15 Regulatory information
US Federal regulations
CERCLA, section 103 (40CFR302.4)
This product contains the following toxic chemicals that require notification of the National Response Center of releases of quantities of hazardous substances equal to or greater than the Reportable Quantities (RQ):
No reportable quantities are present.
Clean Air Act, section 112
This product contains the following components present at or above the minimum level and listed as Hazardous or Extremely Hazardous Air Pollutants:
No reportable quantities are present.
SARA, section 302 (40CFR355.30) and section 304 (40CFR355.40)
This product contains the following items that require emergency planning based on Threshold Planning Quantities (TPQ) or release reporting based on RQ:
No reportable quantities are present.
SARA, section 311/312 (40CFR370.21) Hazard classification for this product
Fire: No Pressure generating: No Reactivity: No
Acute health: No Chronic health: No
SARA, section 313 (40CFR372.65)
This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986:
No reportable quantities are present.
EPA VOC regulations
Theoretical VOC for this product = 8 g/L (0.0644 g/gal)
TSCA
All components of this product are listed, or are exempt from listing on the TSCA inventory.
OSHA
This Safety Data Sheet is prepared to comply with the United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (29 CFR1910.1200). Unlisted ingredients are not ‘hazardous’ per OSHA standards.
In addition to items listed in Section 11, this product contains the following items that are specifically regulated by OSHA. Exposure limits may be found in Section 8.

no reportable quantities are present.

State regulations
California Prop65
Warning - The following chemicals are present in this coating product in small amounts. These chemicals are listed by the California EPA as materials known to the State of California to cause cancer, (and/or) birth defects, (and/or) other reproductive harm:

Calcium carbonate (Nuisance Dust) CAS # 1317-63-3
Crystalline silica CAS # 14808-60-7

16 Other information
The information and recommendation set forth herein are believed to be accurate. Because some of the information used to prepare this document is derived from information provided to PAREXUSA, Inc. from its suppliers, and because PAREXUSA, Inc. has no control over the conditions of handling and use, PAREXUSA, Inc. makes no warranty, expressed or implied, regarding the accuracy of the data or the results to be obtained from the use thereof and assumes no responsibility from use or reliance thereon. It is the responsibility of the user of PAREXUSA, Inc. products to comply with all applicable federal, state, and local laws and regulations.
